Ref. : 490 - Scharenslijpmachine 074.700.003

Kompakt, handig, klein. Schaar moet niet uit elkaar gehaald worden. Zowel voor rechts- als linkshandigen.
Compact, maniable, petit. Sans nécessité de démonter les ciseaux. Pour gaucher et droitier.
 Save time and money by eliminating the need to replace your scissors or send them out for sharpening! This versatile, manual scissors sharpener will put a razor sharp edge on your household, kitchen, sewing, general purpose scissors and game shears quickly and easily...left or right handed! And you won't have to disassemble your scissors! The two stage sharpening system features interchangeable sharpening pads made of 100% diamond abrasives and precision angle guides for both conventional and knife-edge scissors. The fine diamond pad has a centre groove for sharpening pointed tools such as ice picks and awls. Compact for convenient storage.

 Elektrische diamant scharenslijpmachine ScissorPro model 500
Aiguisoir aux diamant électrique ScissorPro modèle 500

Een revolutionaire ontwikkeling in de technologie van scharen slijpen... Vanaf nu kan iedereen zijn eigen scharen ongelooflijk scherp maken, makkelijk en veilig. Voor ongelooflijk scherpe scharen. Voor keuken-, huishoud-, naai- en knutselscharen, enz. Slijpt de schaar zonder deze uit elkaar te halen. Diamant slijpschijven voor superieure kwaliteit. Dubbel afgeschuinde slijphoek. Blijft langer scherp. Test de hardheid en andere kwaliteiten van de schaar niet aan. Gepatenteerde technologie, géén 'gokwerk' meer. Compact, makkelijk en veilig. Robuust model; één vol jaar garantie.

Une révolution en matière d'aiguillage des ciseaux... permet d'obtenir un tranchant de qualité professionnelle avec une facilité incomparable. Pour des ciseaux incroyablement tranchants. Pour la cuisine, le ménage, la couture et les travaux manuels. Aiguisé sans nécessiter le démontage des ciseaux. Éléments abrasifs en diamant garantissant des résultats supérieurs. Tranchant à double biseau. Reste tranchant plus longtemps. Sans risque pour les ciseaux de qualité. Ne détrempe jamais les ciseaux. Technologie brevetée. Compact, facile d'emploi, sans danger. Construction robuste, 1 an de garantie.

For super sharp scissors all the time! The ScissorPro® electric scissors sharpener uses 100% diamond abrasives and built-in precision angle guides for professional quality edges quickly and easily. Sharpens a wide variety of household scissors from delicate embroidery scissors to knife-edge shears, even poultry shears! Safe for quality scissors. No disassembly of scissors required. Can be used for left-handed or right-handed scissors. You'll never again have to waste valuable time and money sending scissors out for sharpening! One-year limited warranty.

Multistage Sharpeners
 Designed for the professional's pocket

Stage 1

Precision angle guides control the sharpening angle. Diamond abrasives remove the old weak edge and create the first bevel simultaneously on both sides of the blade.

Stage 2

Fine grit diamond abrasives create the second bevel on both sides of the blade while polishing the edge. The arch-shaped, razor-sharp edge resists dulling longer.

Stage 3

On Selected Models—**Stropping**
 Draw the blade lightly across the ultrafine stropping pad, alternating sides, to further refine the edge to hair-splitting sharpness, quickly and easily.

Ref : 482 - Zakmessenslijper 074.700.002

Kompakt, handig en klein voor alle soorten messen en scherpe materialen.
Compact, maniable et petit pour tous genre de couteaux, hache, etc.
