Introducing the newly developed **TAGGY 2**

The TAGGY 2 is designed to handle easily, allowing operators to fasten price tags promptly and efficiently. The TAGGY 2 promises to ensure low-cost tagging operation.

The TAGGY2 series features the design of a lightweight and well balanced tagging system, enabling precise operation.

Microspaced 100 PP pin system has been developed through our many years of experience and technology.

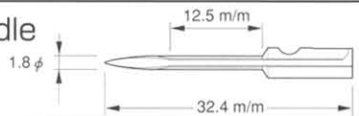

Compact, 100 Microspaced strip, combined with TAGGY2, provides more effective, easy and reliable operation.

TAGGY2 employs a cutter needle.
